

# CALLING ALL VOLUNTEERS!

**Give a helping hand on any Saturday from 8am–2pm.**

Sign up to volunteer with TRADART Foundation and support our high school trades programs. Work alongside fellow tradesmen and students and make a lasting impact today.

Advanced Woodworking and Construction Technology high school students are building 200-sq-ft tiny houses.

To reach their project deadline of May 20, they need your help. Volunteers, grab your hammers and come build a tiny house.

Proceeds from the tiny house sales go directly back to supporting the Tiny Houses program.

**Contact a teacher to learn more and sign up!**
